

BACHELOR OF ARTS IN JOURNALISM, BROADCAST AND DIGITAL MEDIA TRACK

This program is currently not available.

The B.A. in Journalism track in broadcast and digital media prepares students for entry-level positions in media production, reporting and writing. The curriculum offers a blend of courses from journalism and telecommunications to support this goal. Course will focus on writing and reporting, video production, professional practices and legal issues. Students are encouraged to build a strong publication and production portfolio by working for our award winning campus media outlets which include The Jambar, the *Penguin Review*, the **yo* magazine (<http://www.thejambar.com/category/yo-magazine/>), *The Jenny*, *Rookery Radi* (<http://www.rookeryradio.com/>), and *thejambar.com*. Internships and opportunities are available at local and national media outlets. Additionally, Journalism majors on the broadcast and digital media track are encouraged to declare minors that support their specific career objectives, and allow them to develop complementary skills and knowledge (students on this track are prohibited from minoring in telecommunication studies because of the wide overlap in requirements). Students who are interested in pursuing a career in writing or print journalism should explore the B.A. Journalism.

Learning Outcomes

The Communication Department has established the following learning outcomes for students completing the journalism major. Journalism students will demonstrate an understanding of:

- What constitutes news.
- Practical applications of First Amendment.
- Strategies for finding and extracting news.
- Writing stories for various audiences and media formats.
- The principles and practices of ethical and professional news.
