Art Education

Art Education students are first and foremost artists who want to teach. They are dedicated to becoming lifelong learners, artists, researchers, and teachers. Prospective art teachers are leaders and advocates for the arts in schools, museums, community centers, and other settings while also caring about students with diverse abilities and their learning and nurturing their love of visual art.

At YSU, our program fosters professional teaching skills along with creative and intellectual growth. Students work with art education faculty who have a diverse set of research interests, ranging from the use of digital technology in the classroom and international studies to art curriculum and instruction and multicultural art education. Small class sizes and hands-on field teaching experiences effectively prepare students to enter the profession of teaching or a graduate degree program. Our graduates find rewarding and meaningful employment in public and private schools, community centers, museums, and galleries.

Students may elect art education as their major in the Department of Art as freshmen; however, they may only begin to enroll in art education and breadth studio courses after successfully completing the Freshman Foundation Portfolio Review. As juniors, they will begin completing required courses, including those in professional education. The B.S.E. leads to teaching licensure in the State of Ohio.
