Overview

In support of the University mission to provide a wide range of educational opportunities in higher education, the Dr. Dominic A. and Helen M. Bitonte College of Health and Human Services assumes a broad focus. That focus entails preparing students for competent practice in positions in both the health and human service professions. The College is committed to excellence in education through the quality programs it provides. To assure continuity and opportunity for health and human service majors, the College has encouraged the development of two-plus-two curricula in several majors that allow students to efficiently progress from associate to baccalaureate degree program completion. Master's degrees, two professional doctorate degree programs and a Ph.D. in Health Sciences further expand and advance the competencies of graduates in the delivery and administration of health care and human services.

Vision Statement

The Bitonte College of Health and Human Services produces graduates who provide exceptional health and human services to enhance quality of life in regional, national, and global communities.

Mission Statement

The Bitonte College of Health and Human Services will continue to impart knowledge, develop critical thinking, and serve society through holistic, integrative, and quality educational programs. Graduates will achieve a high level of professional competence through scholarly inquiry and transformative experiences to address society's ever-changing demands for healthcare and human services.

Living Learning Community

The Health and Human Services Interdisciplinary Learning Community enhances the Youngstown State experience and promotes success for first-year students by supporting academic success, facilitating professional development and encouraging student engagement among faculty and peers in a supportive environment. Students in their first year of the HHS Interdisciplinary LLC will participate in shared coursework, guaranteed placement in core courses tailored to the LLC experience, residential experience with a cohort and access to a variety of programming, including but not limited to:

- Live together in Lyden House
- Volunteering Experiences

Unique Requirements of the College

Incoming freshmen entering the College as an undetermined major or pre-major student or requires extensive remedial/developmental course work, or is a student returning to the College after a suspension, the student must complete YSU 1500, Success Seminar, within the student's first 30 semester hours of coursework.

Students need to be aware that many of the programs in the College require a criminal background check. Some require drug testing and a physical fitness examination. In a few cases, there may be a requirement for a psychological evaluation. In addition to programs requiring some or all of the checks/evaluations listed above, some of the agencies where students complete clinical training, internships, or other related activities may also require these checks/evaluations. If you are concerned that you may not be able to complete a program or one of its requirements due to any of these checks/evaluations, please speak with an academic advisor or the chairperson of the department.

Students wanting to pursue Nursing, Pre-Dental Hygiene, Exercise Science and Medical Laboratory Science need to complete high school Chemistry and Biology with "C" or better.
